PROFESSIONAL EXPERIENCE

Cognizant / Schneider

Software Engineer / IT Solution developer - Milwaukee, WI

August 2020– May
2023

- Assisted in resolving production and non-production incidents related to the Order Execution team, specifically for ADF apps such as Oracle Transportation Management and Customer Order Management.
- Assigned incidents to offshore members as a team leader and helped in case they encountered any issues.
- Worked on the development of automated agents and workflows for Oracle Transportation Management.
- Developed SQL queries to assist business users, resolve issues, and automate processes, resulting in reduced ticket counts.
- Utilized tools such as PuTTY, WinSCP, Log Miner, Fasttrack, Dynatrace, and services such as JMS and SOA to identify and address issues.
- Collaborated with the IT Service Management team and OP Asset team to promptly identify and resolve IT incidents and service disruptions.
- Conducted regular incident and problem management meetings to analyze trends, perform root cause analysis, and identify opportunities for improvement, contributing to the reduction of ticket backlog.
- Utilized ITSM tools such as Cherwell and PagerDuty to log, track, and manage incidents.
- Contributed to the creation and maintenance of ITSM documentation, including IT wikis, root cause analysis documents, and work instructions.

EDUCATION

University of Wisconsin - Milwaukee / Milwaukee, WI

B.S. Computer Science

GPA: 3.57

- Cum Laude, Commencement Honors, Sophomore Honors
- Dean's list: Spring 2016, Spring 2017, Fall 2017, Spring 2018, Fall 2019

January 2016 - May
2020

Technical Academic Projects:

- Developed a heart rate monitoring application capable of real-time data collection and historical data analysis.
- Created a TA scheduling application using the web framework Django in Python.
